Token for Creators and Investors

AI TALENTGPT

2023

In the ever-evolving job market, finding the perfect match can be a daunting task for both job seekers and providers. However, AI TalentGPT is here to revolutionize the way we connect and create meaningful opportunities for all.

For job seekers, AI TalentGPT offers a breath of fresh air. Gone are the days of sifting through countless job postings that don't quite fit. With its intelligent algorithms, TalentGPT analyzes your skills, aspirations, and preferences to bring you tailored job recommendations. Say hello to a streamlined job search experience that saves you time and effort, while increasing the chances of finding that perfect fit.

But the benefits don't stop there! Job providers also reap the rewards of TalentGPT. By leveraging advanced AI technology, TalentGPT matches them with highly qualified candidates who align perfectly with their requirements. It's like having a talent magnet that attracts the best and brightest, making the hiring process more efficient and effective.

With AI TalentGPT, job seekers discover exciting opportunities that align with their passion and expertise, while job providers gain access to a pool of exceptional talent that fits their specific needs. It's a win-win situation that revolutionizes the job market by fostering meaningful connections and driving mutual success.

So whether you're on the hunt for your dream job or seeking the ideal candidate, let AI TalentGPT be your guiding light. Experience the benefits of advanced AI matchmaking, bringing job seekers and providers together in perfect harmony. Embrace the future of job searching and hiring with AI TalentGPT, where the possibilities are endless.

AI TALENTGPT FUTURE

The screenshot shows a software interface for managing人才招聘 (talent acquisition). At the top, there are tabs for CRM, People, Pools, and Vacancies. The main area displays a list of "Suggested contacts" for a "Senior Product Designer" position. There are 23 contacts listed, each with a checkbox, name, match score (represented by three colored dots), primary company, title, location, and last activity date. A tooltip for one contact, Guy Hawkins, indicates he is a "Good match" due to experience relevance (Graphic Designer at Barclays - 3 years) and education relevance (Graphic design, print design). The interface includes a sidebar with navigation icons and a note at the bottom stating "Note: Image is just for reference."

AI Talent GPT, an exclusive product of Beamery, is undergoing transformative changes to cater specifically to jobseekers. The platform is being revamped with advanced AI algorithms to provide tailored opportunities, personalized career guidance, and improved job matching. Through strategic partnerships, it will expand its network and connect jobseekers with a diverse range of employers. The aim is to revolutionize the job search experience, empowering individuals to navigate the market with confidence and efficiency. AI Talent GPT will harnesses the power of AI to bridge the gap between jobseekers and employers, creating a seamless ecosystem for talent discovery in the modern workforce.

AI TALENTGPT TOKEN

The revolution begins now.

We are delighted to unveil the remarkable AI TalentGPT tokens, an exciting addition to the prestigious Beamery and MyBeamery platform. These tokens serve as a valuable digital currency, allowing users to earn them by successfully completing tasks within the My Beamery App. Additionally, users have the option to purchase AI TalentGPT tokens, with the ultimate goal of ensuring the accessibility of AI TalentGPT free of charge within Beamery ecosystem.

This dynamic token system amplifies user engagement, fostering an ecosystem that rewards active contributors in MyBeamery platform for AI training and simplifies investment for making AI TalentGPT free. By introducing AI TalentGPT tokens, My Beamery paves the way for a future where AI TalentGPT is readily accessible to all, empowering individuals to shape their own destinies. Embrace the journey towards enhanced engagement, accessibility, and a world of exciting possibilities with AI.

Lets make AI TalentGPT open and free for all.

BEAMERY

PLATFORM

Since 2013

Beamery is a cutting-edge platform that revolutionizes human capital management. As a global software-as-a-service (SaaS) company, Beamery offers innovative solutions to streamline and optimize talent acquisition and employee management processes. With headquarters in London, United Kingdom, and operations spanning across Germany, Singapore, and the United States, Beamery has established itself as a leader in the industry.

Beamery is a cutting-edge platform that revolutionizes human capital management. As a global software-as-a-service (SaaS) company, Beamery offers innovative solutions to streamline and optimize talent acquisition and employee management processes. With headquarters in London, United Kingdom, and operations spanning across Germany, Singapore, and the United States, Beamery has established itself as a leader in the industry.

With a focus on enhancing candidate and employee experiences, Beamery equips organizations with the tools and insights needed to make data-driven decisions, improve recruitment outcomes, and build strong employer brands. By leveraging automation, analytics, and personalized engagement strategies, Beamery helps companies stay ahead in the competitive talent landscape.

WHAT NEEDS TO CHANGE TO MOVE TO A SKILLS-FIRST APPROACH

Note: Image is just for reference.

Whether it's optimizing recruitment workflows, strengthening employer branding, or fostering talent development, Beamery empowers organizations to unlock the full potential of their human capital. With its forward-thinking approach and commitment to innovation, Beamery is driving the future of human capital management and revolutionizing the way organizations attract, engage, and retain talent.

MYBEAMERY

PLATFORM

Since 2023

Introducing MyBeamery, a groundbreaking platform designed for AI training through human intervention in completing various Gigs. With MyBeamery, users have the unique opportunity to contribute their skills and expertise to train AI models, making a tangible impact in shaping the future of artificial intelligence.

AI TALENTGPT TRAINING PLATFORM

Personalized career paths that employees can co-design: **45%**

Opportunities for cross-organization exposure: **40%**

Optimizing internal mobility so employees can easily move between roles: **40%**

Coaching and mentoring opportunities: **40%**

Self-directed learning opportunities: **39%**

High quality digital mobile-enabled recruitment: **39%**

Continuous employee feedback mechanisms: **39%**

Our employer brand and value proposition: **37%**

Collaborative workplace design: **35%**

More engaging internal communication: **35%**

Flexible benefits and rewards: **33%**

A culture where every employee is treated fairly and equally: **33%**

Note: Image is just for reference.

Tasks on the MyBeamery platform encompass a wide range of activities, tailored to harness human intelligence for training AI. These tasks may include:

- **Image Annotation:** Users can assist in labeling and categorizing images to train AI models for computer vision applications, such as object recognition or facial recognition.
- **Data Validation:** By validating and correcting data inputs, users ensure the accuracy and reliability of AI models, contributing to improved decision-making and predictive capabilities.
- **Language Processing:** Engaging in tasks related to natural language processing, users can aid in training AI models to understand and generate human-like text, enhancing applications like chatbots or language translation.
- **Sentiment Analysis:** Users can contribute by evaluating and categorizing sentiments in texts, enabling AI models to understand emotions and opinions, and enhancing sentiment analysis applications.
- **Audio Transcription:** By transcribing audio recordings, users assist in training AI models for speech recognition and transcription applications, improving accessibility and language processing capabilities.

Through the MyBeamery platform, users actively engage in these tasks, providing the necessary human expertise and intuition that is vital for training AI models effectively. This collaborative approach ensures the development of robust and accurate AI systems, capable of delivering reliable and intelligent solutions across various domains.

By participating in MyBeamery's Gig-based tasks, users contribute to the advancement of AI technology while earning rewards and recognition for their valuable contributions. MyBeamery not only enables users to harness their skills for AI training but also fosters a community of AI enthusiasts dedicated to pushing the boundaries of artificial intelligence through collective human effort.

AI TALENTGPT TOKENOMICS

The AI TalentGPT token will be the integral part of the Beamery Ecosystem and will be used for purchasing credits and engaging with platform features.

This token will most be used for rewarding people in MyBeamery App for their contribution and engagement.

Total lifetime Supply of the token will be 1 trillion (1,000,000,000,000) and the initial exchange offering price will be \$0.0001050, Giving a market cap at launch of \$74,000,000.00.

Presale (30%): Allocation for the initial sale of tokens to early investors or participants . This Sale Aims to raise funds for the Project's development and Marketing Efforts.

Liquidity Pool and CEX Allocation (15%): Reserved tokens for establishing liquidity on exchanges and supporting the token's trading activities.

Platform Activity Rewards (10%): Tokens distributed as rewards for active engagement and participation on the MyBeamery platform.

Airdrop at Completion of Phase 2 (10%): Tokens distributed as a free giveaway to eligible participants upon the completion of a specific project phase. Lucky winners from 1st 1000 holders.

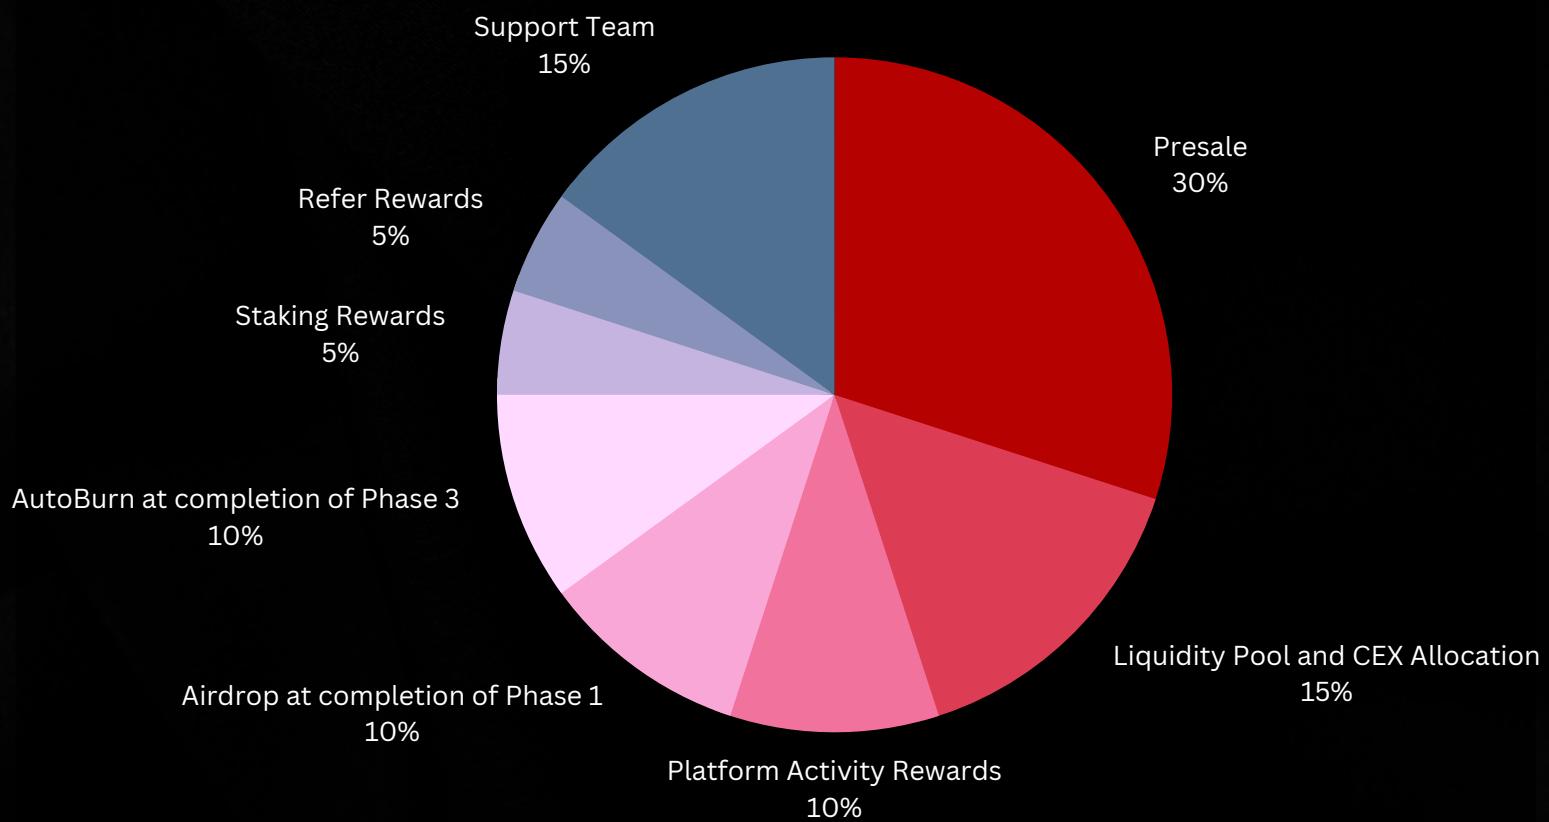

AutoBurn at Completion of Phase 3 (10%): Tokens automatically burned or permanently removed from circulation upon the successful completion of a designated project phase.

AI TALENTGPT

TOKENOMICS

Refer Rewards (5%): Tokens provided as rewards to users who refer or bring in new participants to the platform.

Support Team (15%): Allocation for tokens reserved to compensate the support team members for their assistance and services.

AI TALENTGPT STAKING

The AI TalentGPT ecosystem offers users the opportunity to stake AI tokens, earning daily credit rewards and accessing platform features. Staking is crucial for long-term engagement and platform stability. This section discusses the staking mechanism, daily credit rewards, and the benefits of staking.

AI TalentGPT's staking mechanism allows users to lock tokens in a staking contract. Users deposit AI tokens into a compatible wallet and stake the desired amount on the AI TalentGPT platform. The tokens are locked for the chosen duration, and users receive daily credit rewards proportional to their staked amount.

Stakers may gain exclusive access to premium features, such as early access to new templates, special contests, or platform enhancements. Staking AI tokens may also grant voting rights for platform development decisions.

AI TalentGPT prioritizes the security of staked tokens, employing multiple layers of protection, including utilizing secure, audited staking contracts to safeguard staked tokens and minimize risk.

AI TALENTGPT

SUMMARY

AI TalentGPT is an innovative technology that powers the Beamery platform, revolutionizing talent management. It combines the power of AI and human intervention to enhance job matching and candidate selection processes. In the Beamery platform, AI TalentGPT is utilized to search through a vast array of web resources, including partner top job provider services worldwide, ensuring comprehensive and efficient results for recruiters and job seekers alike.

MyBeamery serves as a dedicated platform for AI training, allowing users to actively contribute to training AI models by completing various tasks in different formats, such as audio, video, and text. Users can earn AI TalentGPT tokens through their active participation in MyBeamery, which can then be used as credits within the Beamery platform. These tokens empower users to search for relevant job-related information, access potential candidate profiles, and make informed decisions.

The future of AI TalentGPT holds immense potential, with ongoing advancements in AI technology and its integration with Beamery. This will lead to more accurate and personalized job matches, improved talent acquisition processes, and enhanced efficiency in talent management. By earning and utilizing AI TalentGPT tokens, users can stay at the forefront of these developments, accessing cutting-edge tools and insights that drive success in the ever-evolving job market.

AI TalentGPT tokens are integrated into the ecosystem to facilitate the smooth and continuous development of the platform. These tokens incentivize user engagement and contribution, fueling the growth and evolution of AI TalentGPT over time. By earning and utilizing these tokens, users actively participate in the platform's advancement and ensure its ongoing success. The presence of AI TalentGPT tokens drives innovation and fosters a dynamic ecosystem that work towards making AI TalentGPT free for everyone

AI TALENTGPT

SAFETY

Purchasing AI TalentGPT tokens involves an element of risk and may result in the potential loss of a significant portion or the entirety of the invested funds. Prior to purchasing AI TalentGPT tokens, it is essential to thoroughly assess and consider the risks outlined in this document, as well as any other risks that may arise.

Crypto assets, including AI TalentGPT tokens, can be vulnerable to expropriation or theft. Malicious entities, such as hackers or organizations, may attempt to disrupt the AiDoge platform through various means, including malware attacks, distributed denial of service attacks, or consensus-based exploits like a 51% attack. These attacks could lead to the loss of AI TalentGPT tokens or the inability to access them. Due to the immutable nature of blockchain transactions, there may be limited recourse in the event of a successful attack against the underlying Ethereum Chain on which the AiDoge platform is built.

It is important to note that crypto assets are not regulated as financial instruments, and there is no recourse or compensation available from regulatory bodies. The regulatory landscape surrounding crypto assets is still evolving, and regulations vary from jurisdiction to jurisdiction, leading to legal uncertainties for owners of crypto assets. Future laws, regulations, policies, or rules relating to crypto assets, blockchain technology, or decentralized applications may be implemented, potentially impacting token holders' acquisition, ownership rights, and ability to buy, sell, convert, or use AI TalentGPT tokens.

Please note that the information provided is for educational purposes only and should not be considered as financial or investment advice. It is recommended to seek professional guidance and conduct thorough research before engaging in any cryptocurrency investment.

AI TALENTGPT

SAFETY

Please note that uncertainties surrounding tax legislation pertaining to crypto assets may expose token holders to unforeseen consequences, such as retroactively applied or future taxable events. Each prospective purchaser of AI TalentGPT tokens should assess their individual risk appetite and consider seeking advice from an independent financial advisor. It is advisable for readers of this document to consult tax professionals, accountants, lawyers, or other experts to ensure a thorough understanding of the design and operation of the AiDoge platform before determining whether the purchase of AI TalentGPT tokens aligns with their risk profile. Cryptocurrencies may be unregulated in certain jurisdictions, and their value can fluctuate. Any profits earned may be subject to capital gains or other applicable taxes in your jurisdiction.

AI TALENTGPT

ROAD MAP

PHASE 1

APRIL-MAY

- AI Market Research
- WhitePaper
- Token Branding
- Tokenomics
- MyBeamery Site Development
- AI TalentGPT Development

PHASE 2

MAY-JUNE

- Presale & Token Development
- Contract audit
- Presale ICO launch
- AI TalentGPT Platform Development
- Integration of AI TalentGPT token in MyBeamery

PHASE 3

JUNE-JULY

- Airdrop for 1st 1000 Presale Buyers
- AI TalentGPT Platform SignUp Launch
- Cex and Dex Listing
- MyBeamery Contributors get AI TalentGPT token as rewards

PHASE 4

JULY-AUGUST

- AutoBurn 10% AI TalentGPT token to increase Holder's Profit
- AI TalentGPT for Jobseekers Development begins
- AI TalentGPT open for job providers in selected countries
- Community page on AI TalentGPT Platform

PHASE 5

AUGUST-SEPTEMBER

- AI TalentGPT Open for Public use
- Anybody can search for the jobs on AI TalentGPT
- Anybody can search for potential candidates on AI TalentGPT
- Making MyBeamery AI trainer Decentralised

PHASE 6

SEPTEMBER-OCTOBER

- Partnerships with major AI developer companies and provide MyBeamery AI Training Globally
- AI TalentGPT Token Community to grow and able to vote for development in AI TalentGPT
